INTRODUCTION

This book is truly a labour of love. The barriers I have laid aside, jumped over, and smashed to get here were challenging. Many were self inflicted. The reason that this first offering or writing is being created is so that a prototype or pattern or example can be visible to you the reader, who want to retire, but cant afford to. You looked around and you were no longer young and you hadn't done all you had hoped or accomplished your goals in life or even BEGUN to create a bucket list.

You represent 80% of the population in the same boat. Yours truly included. The Barn Office website and This Workbook, or book, Wisdom from The Barn Office , was born out of two tremendous inspirations. Firstly, An all time best selling book, "The Shack" (now a movie as at March 3 2017). The second inspiration, the movie.

For now, please know this, this book was written from bits and pieces of my and others life story from Our actual barn office in the Stockyards located at Shedden Ontario Canada. As I write I am discovering such a longing in my heart to go back there. I really, really miss that time as a young boy and the farms and the cattle and even the chores. I can so clearly see both my Father and my Grandfather sitting and talking in The Barn Office. I will lay out the prototype purpose in the next chapter.

This book is written as an example to you, a precious soul and reader with your own life challenges and testimony and I pray overcoming strength.

We pray you can begin, by recording on paper, your own written testimony that leads to the triumph and truth you so desperately seek in life. I am 63 years young on May 23 2017. This introduction was written right around Valentines day in 2017 and brings back a thought that 4 years earlier a good friend from University of Guelph of 76A Associate Diploma in Agriculture, took his life after suffering from both sexual abuse and alcohol addiction. Both destroyed his body, soul and spirit. Recently another good friend died after he and a friend slid in their car on black ice and hit a tree, a tree standing alone. Both of these are tragic events and a demonstration of how fragile life is and how important that we learn to overcome adversity and hardships and how important it is to properly view the bad events in our life .

We all need to adopt and maintain an attitude of gratitude and know that God himself put overcoming power in each and evert one of us. Let me re-iterate, This workbook is a framework to help each and every one of you learn how to release your pain and hurts through pen and paper and by developing a good heart of forgiveness and unconditional love that all of us have deep inside us.

Our idea of writing this prototype starts out with chapters that describe times and events in your own life, following the chapter titles as they lead you to record your very own testimony and bear your heart so that you and I can learn to truly rest in peace both here and there (not pieces) with unfinished works and dreams unfulfilled as well as unspoken words to loved ones.

Chapter 4 - EARLY LIFE THOUGHTS

Starting out in life some highlights I remember are missing out on a road trip with Grandma and Grandpa Brown. My mother walking me to school on day # 1 for Grade 1 at SS # 10 (Stands for Southwold School # 10.) This school property was on the corner of our Brown Family Century Farm that was donated to the Township by my Grandfather. He was a giver. I remember riding in the car at age 8 I believe to go to funeral home where Great Uncle Duncan lay in a box. I just recalled at age 6 showing him, My Great Uncle Duncan, my Barn shaped lunch box in which he put a dollar bill. I was so happy about both. Another giver. I remember one day that Grandpa Brown told me to save every penny and as well, him sharing about Great Great Grandpa who traded a team of horses for the Large Square Head stone marking The Brown Family plot in St.Thomas Cemetery located right near a Tree with 7 large branches growing out from one base. Bullying in Grade 7 and 8 and 4-H and first date and other highlights I will talk about a bit later. There was much much more going on in our family home that I wasn't aware of until many years later.

Chapter 5 - MEMORIES OF FAMILY AND FARM

I remember waking up in the first home I ever lived in on my birthday on May 23 to a freak snowstorm when I was 3 or 4. I also just remembered developing the mumps that wouldn't go away at the age of 5 and going to stay in the hospital under the care of both Dr. Montieth and Dr. Hagerman at St. Thomas Elgin General Hospital (STEGH). I was already terrified staying by myself at the hospital but one day Dr Hagerman was behind me with a needle inserted into my spinal column and two nurses holding me still so I wouldn't be paralyzed if I moved. Scary stuff for a 5-year-old. I was terrified. I was in over a weekend because I remember Ralph (who went to live with Jesus this past last week of March 2017). Ralph was a good man with a good family. He was diabetic and had both feet amputated and lived in a senior's home. Both he and my Father suffered at the end. Neither suffer now. He and wife Jean opened their store at Palmers Red and White in Shedden Ontario Canada, my home town so they could buy me a new set of pajamas and make me feel better. It worked. My mother, Doreen Brown and Jean Palmer went to Nursing school together in Chatham Ontario. I never forgot Ralph and Jeans kindness and admired and respected them both from that day forward. I know you are with Jesus now Ralph. Thank you for being a positive part of my life. The tests came back negative and I was soon on my way home to continue lead my younger siblings into mischief then and be the best example of Jesus I can now.

I can remember arguing and fighting with other children in Sunday School. Hey. Dad and Mom had us in Sunday School and Church every Sunday. That long term made each and every one of 7 siblings seek and I pray find God. (Romans 10:8-10 , John 16:4, John 3:16) I remember a young boy, Alan Stafford running into traffic and being killed at a very young age.

I remember the many road trips we took as a family, piled into the station wagon. I remember fondly going on vacation with the Palmers to their cottage in Peterborough. Loved it there. I remember saying and hearing many a time....."Are we there yet?" Good times. Very good times.

Chapter 6 - MEMORIES OF THE FAMILY FARM AND TOWN (SHEDDEN)

Wow, here we go. I recall doing chores on our and other farms. (Boy do I miss doing that now.) We were raised, all 7 of us "little angels" on one of 7 Beef Cash Crop Farms. I remember receiving a brand new case 930 Tractor that was destined for NHL Hockey All Star, Bobby Hull for his Farm near Chicago USA. (I pray Bobby Hull forgave us!) We would at times invite our cousins and distant cousins into our Farm and Barn. This story could have gone R rated in places due to some cussing and pre-teen shenanigans. The Farm.....Many a night I would walk down a long dark laneway, about a ¼ mile, carrying my duffel bag full of hockey equipment , to stand, in the middle of winter, at night to get picked up by one of our coaches to go play hockey about a ½ hour away in West Lorne Ontario. Fun indeed. (That doesn't happen today. Different world today.)

Many, many, many, many, many more nights I remember playing hockey on a pond about a 15 minute walk from our house behind the barn and across the pasture field that were to supply water to both old house and barn. We would be out there, my three brothers and three sisters with my adopted Big Brother Wes Stafford Sr. until late at night playing pond hockey in the dark and having fun with friends and family, including Wes's two boys Wes Jr. and Paul. We had a blast.

Ok, let's not forget the odd cousin who visited the farm and would like to demonstrate his city knowledge of farm things, like riding the pigs into the manure (dung or poop) , because we told him we could. Yeah. Use your imagination a frightened pig weighing 200 lbs. running through poop and dumping off his/her back anyone trying to mount her/him. We all had a good laugh except for our city cousin who had to explain later to his parents why he was covered in manure! We weren't always popular with the adults and parents. (Wonder why?)

I remember hearing ..."I am 18 " by Alice Cooper , when I was 18 , back in 1972. I also, remember, I believe it was a Sunday afternoon when Dad and I were doing chores and Dad decided to go up in the silo to remove frozen silage from the walls of the silo so that the silo unloader could gather it up and blow it down the silo chute to feed to the cattle. All guards on the unloader were not in place. Dangerous. Dad's foot got caught in an auger and thanks be to God Dad was at or near the steel chute he could bang on to get my attention to shut off the unloader and at the same time, thank God I had returned to the area below the steel chute in time to hear Dad and shut the unloader off and save Dads foot. (Too close for comfort.)

I also remember one of many good baby sitters we had. Shirley Gordon....or "Shirley Gomo". (She talked with a speech impediment .) Yup. At times we weren't very nice. (I was Damo vs David, enough said.) She just died a year ago.

I remember going to watch Dad play basketball at Hepburn's Barn, a really cool barn converted into dressing rooms and offices (full of nudie pictures) on main floor and a Gymnasium upstairs, it was awesome!

Chapter 7 - PREHIGH SCHOOL DAYS

The dominant memories for me are pre-highschool were things and events like Christmas Concerts, John F Kennedy's assassination, school yard strip tease, our dog being hit by a car and 2 years of bullying by an ex-friend. I've talked about this before but without solution which is why I write and why I search for the true path to freedom and truth and life. Yes, I refer to Jesus. The bullying stained and scarred me for a life time. Two years of being called names and being beat up and being destroyed by reducing my self esteem and self confidence and self image to zero. It was about the same time as I took on the inner identity of a loser because I couldn't properly defend myself. I became the one who took flight vs fight for a long time. I have had relapses when threatened by those in the farming community that I had reached out to help. Some right out of the blue. In my later years I would self medicate with marijuana and alcohol, specifically beer, a LOT of beer. (Right John?) All to heal my bully wounds, even took Karate for three years to build self confidence and learn how to defend myself. It helped. I also turned to sex and had many girlfriends and also acquired a high performance car that provided the speed I loved and the power I thought I needed.

I was devoured by rebellion, anger, frustration, revolt, disobedience, and distraction from thinking about my painful past. I couldn't clown around, drive around, sleep around, drink around or smoke enough to kill the pain of the bullying and abandonment.

The time just after the bullying brought me into stinking thinking that I would never succeed and never be a man of financial resources. I began thinking of lack from the time I rose to the time I lay down at night day after day after day. I have wandered in the desert for almost 45 years. I know the pathway, the way, to true freedom in Christ. For me it is a journey of faith that is in the form of writing, publishing, testimonies and completion of a ministry program called RTFI that will expand my horizons and help the Wealthy Farmer become The Wealthy Farmer, Marketplace Ministry to Disciple the Nations!

Chapter 8 - HIGHSCHOOL MEMORIES

Wow, when I get here it was like starting all over again. The good news....Bullying was over. I was sent to Parkside Collegiate Institute in St. Thomas Ontario Canada. I remember Miss Massur in room 9-4, our home room. She was one prim and proper lady. She didn't know what to do with Tim an outspoken life loving hilarious student crying out for all of her negative attention. He was funny. He had a drug overdose early in his life and just died after being institutionalized for most of his life. It didn't take me long to grow my brushcut out into a hippy haircut. I was going steady with a girl from out of town, near Tilsonburg Ontario, about 20 miles away. During my first two years of highschool and almost getting dumped a couple of times. I dumped her. She, Stephanie was nice but I wasn't always nice to her. That was a place in my life I needed forgiveness from God. I was a jerk. I moved out into the field, a big field, to play the field. If I were a combine, I would have needed 10 headers attached. Instead of taking a 100-foot swath I attempted 1000 feet at a time. (Much, ladies, alcohol and car speed) I turned into a temporary Wildman until first my wife and then Jesus got their hands on me or I would have been dead long ago.

I couldn't get enough of all three of the above. My appetite was huge for partying 24/7. I rebelled against my parents and anyone in my way. I learned to take care of myself by learning the basics of karate. The ladies were all just looking for love in the wrong place, but, guess what I respected every one. In highschool I observed a strawberry blonde, Susan, from a distance but I thought would wind up marrying the young man, an athlete she dated so I went on with my life and went berserk partying and racing and smoking and drinking and sexing until I was discovered 5 years later in my favourite St.Thomas Ontario bar, The John Scott, where my now wife of 40+ years picked me up, literally and took me home. (I am still here and so is she) We connected big time. She could read me like a book. Still does. I loved her. I love her. (I married my highschool sweetheart)

Highschool concluded with me achieving a whopping 50.5% average in Grade 13 (Someone helped me to move on from there) and I took a job right out of highschool swinging a hammer as a carpenter,,,hmmm

That year of my life had no real significance until I wrote these words on paper. I, like Jesus , was a carpenter before I became a Minister for God and an Evangelist.

Highschool for me.....sucked. I hated school. (At age 57 I was professionally diagnosed with ADHD which answered the question.....Why do I hate school? Lack of both focus and attention span. That sucked. Not school. I did hate rules. I hated homework, Math and French for which I had to attend summer school at H B Neal Secondary school in London at age 17 while at same time suffering from Mononucleosis. (Gee, I wonder how I got that?) At age 33 I would be diagnosed with Hepatitis A. Both Mono and Hep A screw with your immune system.

Chapter 9 - SIGNIFICANT CHARACTER SHAPING EVENTS

Besides being the oldest of 7 children and clearing the way for 6 siblings and the bullying in my last 2 years of public school. The character shaping events that were to come were, being punched in the head and nose with blood all over the place that went to court and the perpetrator was charged with assault. Having my car run into the morning of the same day I was handed a death sentence of terminal prostate cancer (that being one of 5 near death sentences I would receive in total, on Feb. 1 2001. My turn to faith at age 36 (after second near death experience, jogging) and at 47 with prostate cancer,(my third near death experience).

More character shaping came by working and travelling full time as both a controller and credit manager and studying at night for 10 years to become a certified management accountant. I wanted to show my Father in Law that I was smart and not some long haired stupid hippie. I wanted to please my Father in Law.

Attended University of Guelph to become a Farmer to please my Father.

Taking both in class and correspondence classes and courses through Rhema Bible Study (Kenneth Hagin Ministries based in Tulsa Oklahoma, Word of Faith Lay ministry courses over two years at Word of Faith International Christian Centre and then rounding all up by graduating from ISOM or International School of Ministry with all of the top teachers and instructors by video from all over the world. I wanted to please My Father in Heaven.

I was in the Father pleasing business most of my life due to the outcome and discovery of a major abandonment issue that was confirmed during a recent weekend session through Restoring The Foundations Ministry here in Ontario.

Chapter 10 - WHAR ARE YOUR REAL FEARS?

This is a BIG topic. You (and I) have to step back and think for a moment and don't let your thoughts get clouded. Let's be real. Is it death? Disease? Loss of a loved one? Lack of money? Lack of employment or profitable business?

For me..... It used to be death. I have literally and physically experienced death already when I was 36 years of age suffering from heat stroke, heat exhaustion and dehydration. I was extremely afraid and then OK. Being unselfish made it ok. Me not them, not family. I left my body. I remembered certain people and certain places. I came back into my body and later on in the next year of my life I gave my heart and soul to Jesus and feared death no more from that point on.

My biggest fear now? After watching and hearing testimonies about hell through John Bevere, Mary Baxter and Jim Wiess I am through a reverential fear of God (awestruck not frightened) and I fear that relatives, friends . family and others I have come into contact with will spend an eternity in torment in hell. My statistcally fear is that I will have not participated in the greatest revival ever coming to the World and moved Canada's population from anything above 6% Born again and heaven is their home.

God gave me...."55/25"55% of Canada saved by the year 2025. A sheep nation.

These are my real fears. God put overcoming in my DNA thanks to both my Grandfather and my Father .

I will overcome all writer's block, all debt, pay all my bills in full, own farms and property and travel the world discipling the Nations as The Wealthy Farmer Move and Mission based on both Mathew 11:12 and Revelation 12:11.

Fear of not figuring out money and ridding my life of the spirits of Leviathan, Mammon and Belial and Orphan. All through www.RTFI.org and prayer and fasting and worship.

More fears.....

Not living out God's will and destiny for my life.

Not becoming a great writer, author and publisher.

I fear hell and I have a reverential fear of God as being both a loving and just God.

I fear family and friends being deceived by false prophecy and doctrine and they know that something is wrong.

I fear being misunderstood in this critical time in history.

I fear dying with unfulfilled dreams inside.

I fear the writings of The parables of Jesus concerning the sins of the 1 talent servant, lying , judgement of others and adultery in the heart. THESE ARE REAL FEARS.

I desire with all my heart to measure up to God's supernatural plumbline and to walk in the righteousness and Holyness of Jesus in this hour.

Wisdom from the Barn Office

I fear not breaking a 45 years financial curse on my life that has virtually bankrupted me and deeply affected my family with few rare exceptions.

I fear bullies but no longer accept their behaviour towards me.

I fear I will never own my own home , farm and car outright.

I fear I will never learn to save money.

I fear letting down my Father in Law, My wife, My children and my Father and Mother and Grandparents

I fear fear.

I have become an expert at fear among other things.

I reverentially fear that family and friends fall for good news and hypergrace , ear tickling doctrine that would have them lay down their armour, do nothing and wait for rapture. Satan knows that if he can get someone out of the fight with him than he has a better chance of deceiving them right into hell.

I am an expert or experienced in love of money, lust, running for excercise , frustration, anger , disappointment , writing and growing.

I am what I think I am. At the time of writing fear, not faith was controlling my life.

I am also an overcomer and I believe God not satan so I know that I WIN!!!!

Chapter 11 - DESCRIBE YOUR PAST SELF ESTEEM AND SELF IMAGE AND WHERE YOU ARE TODAY. BE HONEST.

On a scale of 1 to 10 my current self esteem and self image is a 3 and a 4. Confidence in self a 5. They have all been much lower in the past. This is a key area in our lives. If we don't have confidence in ourselves, others won't either. Self esteem and self image is dealt with extremely well in a book with a weird title called "Psycho Cybernetics" written by Maxwell Maltz years ago.

Criticism from my Father along with two years of bullying left me with little self confidence or self esteem as I entered high school. Hence all the sex, drinking, smoking and car speed and partying, anything to help me stop thinking bad things about myself and my life. I had developed a frail image about myself supported by my Father and Grandfather. I let them lower my expectations of myself and my self esteem and suffered greatly for it. Do I love my Dad and Grandpa? YES! Do I forgive them both? YES! Interestingly I have loved money. Reared running out. Love to spend money. Go figure.

I turned to Women, alcohol, marijuana, fast cars, partying, and spending to ease my burden of low self esteem that I carried and it has taken a toll on my life. It also taught me to reach out and up more often and become a much stronger man of God. Fortunately, I have found Maxwell Maltz's book, God's book and Word of Faith and Pentecostal and Evangelical along with Apostolic Outreaches and Restoring The Foundations International Ministries to build myself back up IN CHRIST!

God has been revealing truths about my total healing through some pretty unusual means so that as I get healed I can then turn around and help many. I can't wait for the revival, restoration and reformation of the Body of Christ to take place as we all take our beat up in this world selves and march triumphantly in HIS, King Jesus's army in these end of days. I am blessed to be able to see great abundance coming in my life in order that I can fulfill my destiny as a RADICAL ANONYMOUS GIVER!!!

Chapter 12 - HOW WERE RELATIONSHIPS WITH FAMILY THEN AND NOW?

This a good question isn't it? Growing up our brothers and sisters, older or younger were someone we could pick on beat up mess around with and insult but we could always love them and reconnect and forgive quickly. I looked at my Father and Uncle (his brother) to see how they got along. They didn't. I believe it was because my Father, the oldest brother, was favoured by his Father. The younger brother, my Uncle got into trouble, rebelled and given the name...."Black Sheep". Me too. Didn't honour parents. Didn't behave parents wanted us to. Disrespected our parents. Did not promote law and order.

I was the oldest of 7 and the Black rebellious sheep, because I, like my Uncle was not my Father's favourite and we both knew it. We loved our siblings and learned over time to hate them growing up because of one thing. Jealousy. Sweet and Simple. Jealousy. Jealousy and Favouritism divided our family and ripped us apart. In my own direct family some of my children upset me at times but I refuse to spend any more time with one over the other. I make my presence and time available to all of my and their children equally. I don't pick and choose. It is just plain not right and causes problems. On the other hand disrespect breeds offense and division or opposition. My Bad. It takes two.

I am finding now that I must forgive and relearn how to love my siblings. All my siblings vs hate them and even worse judge them and ignore Mathew 7:1. Now that is wrong. Its not only wrong it is eternally deadly. If you want to be prideful and arrogant and unforgiving and offended.....BE MY GUEST and enjoy hell and I mean it....because that is where you will wind up my friend....for eternity. This is where I STRONGLY WITH ALL MY HEART ADVISE you to go listen on you tube to John Beveres "Afabel" story and the testimony of Jim Weisse ...22 Minutes in Hell and Mary Baxter's testimony about hell. Look on Youtube.

DO NOT die with an ounce of unforgiveness or offense in your heart. Not an ounce!

So what about growing up in our Big family?

Sheltered. Spoiled. Drama. Fighting. Spankings when Dad got home. He was always who Mom threatened us with. Love. Excitement. Farming. Rides in the car. Motorcycle. Snowmobile. Swimming Pools. Tractors. Farm Equipment. Ice Hockey. Baseball. Fast cars. Parties with Adults. Parties with Kids. Christmas Dinner. Sleep overs.

Once in our teens, my sister and I rebelled and rebelled and rebelled. Why? Get attention. After my sister and I rebelled and carried on all the other 5 siblings saw how NOT to behave to win Mom and Dad's favour.

Today. Honestly. No BS. I forgive them and love them all no matter what. Why? Because I have had a change of heart? Toward them? NO! Toward God? YES! I reverentially fear God now. I know I must repent for ALL of my sin AND FORGIVE as Jesus did!

It took me nearly 60 years to figure this out. This I know.....Figure it out here and now....It's too late otherwise.

Chapter 13 - WHERE WAS YOUR HAPPY PLACE GROWING UP? ARE YOU HAPPY NOW?

WOW. Boblo Island. My Bedroom. Dinner Table. Grandma's Cottage. The Barn. The Farms. The Barn offices. Going with Dad to buy cattle. Driving my 68 Nova. Partying with all of my wonderful friends. Birthday Parties....Especially on Victoria Day with Fireworks with My Grandma who had her birthday on May 22 and My Birthday on May 23. Falling in love with Susan. (my wife of 40+ years). Marrying Susan at Old Anglican Church in Port Stanley Ontario (no wonder I love that village so much)

That same church is filmed and part of the Taken TV series. The birth of all three of my wonderful children. They have great kids because they are great kids (adults).

Am I happy now? Getting better. The bullying lingers, as does the debt and sporadic disrespect by some people. I don't like myself yet. My self esteem and self image are low but getting better. I am beginning to feel settled in mind and spirit. I am being treated for issues of Bi Polar, ADHD and Depression. I feel better. Much better. I am well on the way to liking and loving myself so that I can massively help, like and love others.

For years I was absorbed in an negative mind set or "Stinkin Thinkin"BIG TIME. I loathed myself due to inability to save money and secure a future of financial independence and freedom to help others. Much better now. Mental health, Physical Health and Spiritual Health are all vital to overall health, Success in Life and Fulfillment of our Destiny.

Chapter 14 - THE SPECIFIC EVENT OR DIAGNOSIS THAT CHANGED YOUR LIFE FOREVER FOR GOOD

There have been a number of events that have altered my life journey but the event that was initially meant by satan to do the most harm and kill me actually backfired, forced me to overcome that and other near death experiences to come. The actual event came about this way.....During Christmas season in the year 2000 I started sensing something was wrong in my urinary tract and private parts. Ok , testicles and penis. Something wasn't right. I went to my doctor who did an ultrasound on my testicles which came back negative or good. Then after a session or two looking I suggested...." Do you think we should do a blood test? " Which we did. The results came back. Horrified I found out that my Prostatic Specific Antigen or PSA which is supposed to be under 4 , mine was 23.5. I was absolutely horrified. So my good doctor hands me over to a Chinese urologist with a barbaric bedside manner. Nice guy.

After both blood and another test for severity which showed the Gleason score of 9 out of 10. It was a killer aggressive strain of prostate cancer...then....now.....rendered no threat to life. Praise be to Jesus!

The actual date I received my diagnosis from Dr Death who spoke out these exact words...." Remember the way your Father died from Prostate Cancer? That is what is going to happen to you!" I received a punch in both the head and gut BUT it was not a KNOCK OUT punch!

This urologist, who I later replaced was running tests on my kidneys and colon to see if cancer had spread, but thanks again to God, no spreading. The cancer was contained in a tumor on the backside of my prostate gland and rated a T2 tumour. I didn't sleep or eat much for two weeks. It was brutal.

The good news? I looked in my Bible and chose Life over Death. I also started studying the Bible intensely for more than a decade through Kenneth E. Hagin and Word of Faith Churches and Ministries, Rhema Correspondence Bible Course over 10 years as well as Two years formal Lay Ministry at Word of Faith Church in Southfield Michigan USA, also completed three years of International School of Ministry (ISOM) and am now licensed in Ontario under Independent Assembly of God International and will conclude my formal studies in North Carolina in spring of 2019 with Restoring The Foundations International or (RTFI.org)

What the enemy, satan, meant for harm turned good and blew up in his face. I have become an overcomer through the Great Grace of God!

Chapter 15 - WHAT LIFE VALUES/IDEALS DO YOU HOLD NEAR AND DEAR TO RIGHT NOW?

WOW. (again)

My mind knows gratitude and grace. My heart knows grace. My heart is working on gratitude.

Values.....Honesty, Integrity , Faith , Fear.....Do on to others as I would have them do unto me.

Listen often. Talk little. Be consistent and persistent. Live a balanced life is more of a will and desire and a goal but I am getting closer and closer to living out this value. Read a book every month. Stop and smell the roses and the water and the land. Pray with and for others when asked. Love unconditionally. Believe God's word. Don't debate the Bible with anyone. It doesn't need me to defend it only to understand and live it. Stand up for what is in the Bible. Speak the mind of Christ not your own.

Use assertiveness vs aggressiveness. Pursue God's destiny for your and my life always.

Reverentially fear God. I repeat, reverentially fear God. This is the beginning of Wisdom. If you don't reverentially fear him, you will turn from wise man to fool and sin.

Write books and ebooks and webinars. Smile often. Return all phone calls promptly. Help People. Serve people. Be paid for value given. Be a radical giver.

I just embraced these words of Wisdom from my oldest son Jesse, who is conservative in risk nature but who has a good head on his shoulders.

“ Just take the gloves off and start swinging, that's my advice. Time for waiting is over. Sometimes you have to push ahead and fail to evolve, but fail quick and learn! “

A month later both he and I took that advice and are embracing a different and changed future with joy in heart and a smile on our faces!

Another successful activity was being a member of a 6 person Talent Bank group for more than 10 years whereby we read a book for one meeting a month and set goals for the other meeting each month. This process promoted collective growth and we learned both from better goals and better books after each monthly report/review.

Chapter 21 - WHAT ARE THE KEY ACCOMPLISHMENTS YOU WANT TO COMMUNICATE FOR ALL IN YOUR LIFE SYMBOLIZED BY THE DASH BETWEEN DOB AND DOD ON YOUR TOMBSTONE AT YOUR GRAVE?

For me, the number one character trait I demonstrated all my life was an overcomer. Rev:12:11

I lived and created a successful on line business around Rev:12:11 and Mathew:11:12

I learned to reverentially fear God through God's written and spoken word.

Through Pastor and Teacher and Prophet John Bevere , His "affable" teaching , along with Evangelists , Jim Weise and Mary Baxter who experienced and wrote books describing hell where all non-believers or more clearly those who did not accept Jesus Christ as their Lord and Saviour in this life will be lost in the next life, or rather, eternal death.

I learned to work effectively in later years even though I was plagued by ADHD.

Graduating Highschool.

Graduating University of Guelph

Graduating as a CMA

Graduating as an Ordained and Commissioned Minister to the Nations and licensed as a Minister in the Province of Ontario.

At most of the above key events were always my Parents and Susan's Parents.

Remaining faithfull in marriage to Susan.

Persistence to never give up.

Learned to forgive all.

Learned to unconditionally love all.

Overcoming 5 near death experiences.

Writing a best selling book.

Learning humility in finances , words and walk.

Chapter 22 - DESCRIBE, IN YOUR OWN WORDS HOW YOU ARE READY TO GO TO HEAVEN AND ARE CERTAIN OF THE WAY THERE

The answer lies in the Bible and Jesus himself. God's written WORD and God's WORD became flesh and dwelt among us.

The Evangelist in me cannot avoid talking about eternity, the only way to get there from here is Jesus.

John 16:4, I am the way the truth and the life, no one comes to the Father but by ME. (Jesus)

I read Mathew often as it has strong warnings there under the New Covenant as to how not to live and behave and cause sin to destroy your eternal life.

The readings and other books, such as The Koran, Budism, New Age and many others that are not the Bible do not identify Jesus as the only way to heaven. All those who are and will be deceived by false doctrine, including both Hyper Grace or the good news message will find themselves eternally missing heaven. The time to wake up and let the truth set you free is right now. According to Romans 10:8-10, we must repent of our sins and invite Jesus to be our personal Lord and Saviour.

THE SINNERS PRAYER.....THE ONLY WAY TO HEAVEN

Dear Heavenly Father, I come before you now a sinner, I confess my sins here and now. I believe that you sent your Son Jesus to be born of a virgin, to die on a cross and was resurrected from the dead to live forever at your right hand. I accept that Jesus did that and that he paid the price for my eternal life with his precious blood and body on the cross at Calvary. I believe that after 3 days he rose from the dead and is still alive today and seated at your right hand. I accept your son Jesus as my personal Lord and Saviour. Jesus come live in my heart and help me to serve you and become both righteous and holy under your shed blood. Thank you for your gift of eternal life. In Jesus name I pray. Amen.

CHAPTER 23 - HOW DO I WANT TO BE REMEMBERED?

As a good man, who loved unconditionally and who loved life and before death.....figured out the mysteries. As a servant of God. A follower of his Lord and Saviour Jesus Christ. The truth was inside me and walked with me. I was imperfect with flaws but became the righteousness of God in Christ Jesus.

I was loyal and committed and determined, I became a Wealthy Farmer because of Family and Ancestors.

I loved life and the people in it.
